

**Kitsa Statti**  
**Catwalk Girls Modelling & Makeup**

After several years of working in the corporate world as a business analyst, I found myself yearning to get back to what I loved most – teaching modelling.

With over 15 years of experience in the modelling, beauty and fashion industry, I have held many exciting roles including fashion show producer/choreographer, modelling school instructor, modelling agency assistant, makeup artist and editor of beauty and fashion columns for international magazines.

I established **Catwalk Girls Modelling & Makeup** in 2004 to meet the growing demand of girls who want to learn how to model in a fashion show or pose in a photo shoot, like the supermodels in Paris, Milan and New York – just for the fun of it!

Catwalk Girls hosts unique and glamorous birthday parties, as well as exciting and educational workshops for group events. Girls ages 6+ participate in fun, informative and interactive sessions that can include a makeup application or lesson, runway modelling instruction, a photo session and a choreographed fashion show production. Girls come away with increased confidence and improved self esteem. Results are immediate. All this, in one day, at a fraction of the cost that modelling schools are charging. Parties and workshops take place at a location of your choice or at a photographer's studio located in Milton.

Catwalk Girls also donates parties and workshops to charities and fundraisers that focus on programs which enhance the quality of life for children. Recipients to date include Autism Ontario, Rotary Club of Milton, Reach Out Centre for Kids, Sick Kids Foundation and Jennifer Ashleigh Children's Charity.

I look forward to planning your fashion show, photo shoot or makeup event!
